

# Toronto Island Ferry Ticket Counts\*

Counting the number and status of Toronto Island Ferry tickets

He Tianning

September 25, 2024

Ferries depart from Jack Layton Ferry Terminal to Toronto Island Park throughout the year. I found some relevant data from Open Data Toronto to count the number and status of Toronto Island ferry tickets. This dataset provides near real-time information about ferry ticket sales and ticket redemption. Counts are provided in 15-minute intervals and updated every hour.

## 1 Introduction

You can and should cross-reference sections and sub-sections. We use R Core Team (2023) and Wickham et al. (2019).

The remainder of this paper is structured as follows. Section 2....

## 2 Data

Some of our data is of penguins (Figure 1), from ([opendatatoronto?](#)).

Talk more about it.

And also planes ([?@fig-planes](#)). (You can change the height and width, but don't worry about doing that until you have finished every other aspect of the paper - Quarto will try to make it look nice and the defaults usually work well once you have enough text.)

Talk way more about it.

---

\*Code and data are available at: [LINK](#).
